

# T5 - Web Development Seminar

T-WEB-500

## Day 07

Javascript

2.0

The exercises are independent one from another; therefore, you can solve them in the order that best suits you.

The exercises are provided as HTML pages.

You have to interact with the HTML code given to solve the exercises.

These very HTML files will be used to correct your exercises, so make sure that your JavaScript files do not require to edit the HTML code.

You have to respect the indicated paths in the HTML files to create your javascript files.

No edition of HTML code is necessary nor acceptable...  
Never edit the HTML code of the files, under any circumstances!  
You only have to hand in the JavaScript files.

If you don't see any white box, make sure the 'style.css' file is loaded.

The use of external libraries or any code that you may have copy/pasted from the Internet is forbidden.

Here's the number of points for each exercise:

- exercise 01/02: 1pt
- exercise 03/04/05/07/09/10: 2pts
- exercise 06/08: 3pts
