

T5 - Networks and Systems Admin. Seminar

T-NSA-500

Day 10

Security

1.0

Today you are a new employee in a company as an IT manager

TASK 01 - ANALYZE MACHINE (20PT)

Your mission is to verify the completeness of this virtual machine online vm.epidoc.eu

You must provide a report on the detected security problems and vulnerabilities.

During the defense you must explain the faults.

For each problem, you must propose also a solution.

The goal is not to destroy the machine.

DDOS is forbidden

nmap, ssl
